## PROFESSIONAL SUMMARY

Motivated B.Tech Computer Science & Engineering fresher (graduating 2027) with a strong foundation in Java, SQL, and full-stack web development (HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB). Gained hands-on experience through four internships and projects such as a Library Management System and a React-based product search and filter app. Solid understanding of OOP, DSA, DBMS, and Agile practices. Eager to begin a career as a software or web developer, learn quickly, and build user-focused applications.

## EDUCATION

|                                                                                                                |                      |
|----------------------------------------------------------------------------------------------------------------|----------------------|
| <b>B.Tech – Computer Science &amp; Engineering</b> , Geethanjali Institute of Science & Technology (2023–2027) | <b>CGPA: 8.50/10</b> |
| <b>Intermediate (MPC)</b> , St. Mary's Junior College, Buchireddypalem, Nellore (2021–2023)                    | <b>88.8%</b>         |
| <b>10th</b> , ZPPHS, Penuballi Village, Buchireddypalem Mandal, Nellore (2020–2021)                            | <b>10 GPA</b>        |

## TECHNICAL SKILLS

**Languages:** Java (OOP, file handling, exception handling), Python, C  
**Web:** HTML5, CSS3, JavaScript, React.js (components, state, routing), Responsive Design  
**Backend:** Node.js, Express.js, REST APIs  
**Cloud & AI:** Google Cloud skill badges (LLMs, AI agents), Cisco badges  
**Databases:** MongoDB (Mongoose), SQL (joins, filters, CRUD), DBMS  
**Tools & Practices:** Git, GitHub, VS Code, Agile, SDLC, Debugging  
**Core CS:** DSA (arrays, strings, trees, graphs, sorting, searching), OOP, Operating Systems

## PROJECTS

### Library Management System (LMS) – Node.js, Express.js, MongoDB (Vaultsphere)

**Link:** <https://code-chinmayee.github.io/Library-management-system/>

- Developed a full-stack Library Management System using HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, and Mongoose.
- Created REST APIs for book management, issue/return tracking, and dashboard analytics.
- Designed a responsive user interface for admin and student interactions.
- Integrated database connectivity and data validation for efficient library operations.

### Portfolio Website – HTML, CSS, JavaScript

- Designed and developed a personal portfolio website showcasing projects, skills, and contact details.
- Built a responsive layout with clean navigation that works across devices and browsers.

### Product Search & Filter App (E-commerce) – React.js

**Link:** <https://code-chinmayee.github.io/filterapp/>

- Built a React.js search and filter application for an e-commerce site to find products quickly.
- Implemented search and filter functionality using React component state and reusable components.

## INTERNSHIP EXPERIENCE

### Web Development Intern – Vaultsphere (May 11, 2026 – Jul 04, 2026)

- Completed an 8-week internship building a full-stack Library Management System (see Projects).
- Implemented role-based access for 2 user roles (admin and student) and integrated REST APIs with the front end.
- Collaborated with the team using Git-based workflows and followed Agile development practices.

### Android Developer Intern – EduSkills × Google (Jan 2026 – Mar 2026)

- Completed a 10-week Android Developer internship in collaboration with EduSkills and Google.
- Secured O grade (Outstanding) in the final exam, scoring above the excellent range.
- Gained hands-on exposure to Android app development concepts and tools.

### Java Programmer – Intern Orbit (Aug–Sep 2025)

- Wrote and optimized Java programs with OOP and modular design patterns.
- Debugged code using systematic testing and console tracing techniques.
- Collaborated in Git-based work cycles including commits, reviews, and merges.

### Web Developer – Codec Technologies (Jun–Jul 2025)

- Built responsive web pages using HTML, CSS, and JavaScript with reusable layouts and consistent styling.
- Converted a static webpage into an interactive, working web application using JavaScript.
- Strengthened front-end development skills through hands-on, task-based work.

## CERTIFICATIONS

- |                                                 |                                                   |
|-------------------------------------------------|---------------------------------------------------|
| • Google Cloud – Skill Badges (LLMs, AI Agents) | • Cisco Networking Academy – Python               |
| • Microsoft + LinkedIn – AI Essentials          | • Infosys Springboard – AI, Python & Data Science |
| • NPTEL – Java                                  |                                                   |

## ACHIEVEMENTS

- Earned multiple Google Cloud skill badges in Large Language Models (LLMs), AI agents, and related AI topics.
- Awarded Star Performer at Intern Orbit internship for project contribution and learning agility.
- School First in 10th standard.
- Secured District-level 7th rank in essay writing competition in 7th standard.
