PROFESSIONAL SUMMARY

Detail-oriented Computer Science Engineering student with strong foundations in Java, Data Structures & Algorithms, Object-Oriented Programming, and Web Development. Hands-on experience building Java applications and responsive React/HTML projects. Awarded Star Performer during internship; skilled in debugging, clean code practices, and Git-based workflows. Eager to contribute to real-world software engineering projects.

EDUCATION

B.Tech – Computer Science & Engineering
Geetanjali Institute of Science & Technology

2023 – 2027
CGPA: 8.50 / 10

TECHNICAL SKILLS

Languages: Java, C, JavaScript

Web Technologies: HTML5, CSS3, JavaScript, React.js, Responsive Web Design

Core Java: OOP, Arrays, Strings, Searching & Sorting, Exception Handling, Collections, File Handling

Tools: Git & GitHub, VS Code

CS Fundamentals: Data Structures & Algorithms, DBMS, Operating Systems

INTERNSHIP EXPERIENCE

Java Programmer Intern

Aug 2025 – Sep 2025

Intern Orbit

- Developed and optimized Java programs applying modular programming and OOP concepts.
- Debugged and tested applications using systematic troubleshooting methodologies.
- Improved code quality and application functionality through iterative enhancements.
- Awarded Star Performer in recognition of contributions and rapid skill acquisition.

Web Developer Intern

Jun 2025 – Jul 2025

Codec Technologies

- Built responsive frontend UI components using HTML, CSS, and JavaScript.
- Conducted cross-browser testing to ensure consistent webpage functionality.

Web Developer Intern

Nov 2024 – Dec 2024

Octanet Pvt Ltd

- Developed responsive webpages with HTML, CSS, and JavaScript.
- Enhanced navigation flow, readability, and design consistency across pages.

PROJECTS

Search Filter App | React.js

- Built a responsive Search & Filter Application with dynamic filtering and real-time search functionality.
- Implemented reusable React components and Hooks (useState, useEffect) for efficient state management.
- Designed a clean, mobile-friendly interface ensuring smooth performance across devices.

ATM Simulation System | Java

- Developed a menu-driven ATM application supporting deposit, withdrawal, and balance inquiry operations.
- Applied OOP principles, exception handling, and input validation to prevent invalid transactions.
- Structured modular, maintainable code to facilitate future feature enhancements.

Traditional Healthcare Website | HTML, CSS, JavaScript

- Built a responsive multi-page website covering Ayurveda, Homeopathy, Yoga, and Manual Therapy.
- Created reusable layout components and intuitive navigation for improved user experience.
- Ensured cross-browser compatibility and consistent rendering across multiple devices.
